

PRAYER FOR GIRL CHILDREN

Dear loving God, we gratefully bring before you all the children who bring life and cheer to everyone who meets them. The girl child often experience restrictions in their dream to have a bright future. In a number of occasions, the girl child is forced to discontinue their studies, work at home and look after her siblings. The girl child in the villages and slums are not encouraged and supported for education. We pray for every girl child in our country specially who experience ill treatment and are victims of abuse. We pray that these children may experience the freedom of the children of God and actualize their dream in life. We pray that the parents may treat their children with respect and dignity, and provide them with conducive atmosphere for their all-around development. Help the children to grow in their God given talents and abilities and become mature persons and be a leaven in the society. We pray for all those who work for the promotion of girl children that they may be strengthened and supported in all their undertakings.
